16 - Other information

16.1 Additional information:

This Safety Data Sheet (SDS) meets the requirements of the Federal OSHA Hazard Communication Standard (29 CFR 1910.1200). This product has been classified according to the hazard criteria of the Controlled Products Regulation (CPR) and the SDS contains all of the information required by the CPR. This information relates to the specific product designated and may not be valid for such product used in combination with any other products or in any process. Such information is to be best of our knowledge and belief accurate and reliable as of the date compiled. However, no representation, warranty of guarantee expressed or implied, is made as to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to suitability and completeness of such information for his own particular use. We do not accept liability for any loss or damages as to that may occur from the use of this information. Nothing herein shall be construed as a recommendation for users which infringe valid patents or as extending a license under valid patents. This SDS provides selected regulatory information on this product include its components. This is not intended to include all regulations. It is the responsibility of the user to know and comply with all applicable rules, regulations and laws relating to the product being used.
